■ [03] EXPERIENCE

FRONTEND DEVELOPER

JUNE 2024 – PRESENT

GoITeens, Ukraine

- Build and maintain marketing landing pages at production scale on Next.js, Astro, Payload CMS, and Gulp.
- Implement A/B testing end-to-end: variant builds, traffic splits, and conversion analytics for paid campaigns.
- Integrate Payload CMS so marketing editors publish content without developer involvement.
- Mentor a junior developer: code review, task decomposition, onboarding.

FRONTEND DEVELOPER

JULY 2022 – APRIL 2024

SoftRyzen, Ukraine

- Delivered 150+ landing pages and CRM frontends with React and Gulp.
- Worked with designers and backend developers to keep UI pixel-accurate and consistent.
- Improved performance and maintainability of long-running projects.
